Here's a revised IGCE to reflect the amount of the requested partial funding – if anything else is needed, let me know.

Thanks,
Greg

Importance: High

Hello Nettie,

Per AMS all incrementally funded TO modifications now require a breakdown of funding costs. Please provide a mini IGCE to show how the approved funding from your management team will be spent on tasks at the Westside Lead Site totaling \$31,391.98. Also, please include LOE, ODC, and travel costs.

FYI, I've provided the attached document to use as a guide. Should you have any questions please feel free to give me a call.

Most appreciative,

Niecy Dobson ☺☺
